

# Quality Policy

Ref: PP09  
Rev: 04  
Page: 1 of 1

Aquatrust have been delivering Water Treatment, Water Hygiene, ACoP L8 Compliance and Legionella Training services in compliance with Industry standards since 2003. Our strategy is to deliver quality services through a well-trained and motivated workforce who provide excellent customer service.

We continually invest in systems and equipment that support our goals and provide a platform to deliver first class services to all our clients.

We are fully committed at all levels of the business to continually review and improve our systems, processes, products and services to ensure they drive us toward this goal. To achieve these aims we set ourselves challenging, measurable objectives at all levels and functions within the business. Progress towards achieving our goals is regularly monitored and measured by Management Review.

Our business systems are regularly audited by ourselves to ensure these aims are met, and by ISOQAR to maintain certified compliance with the requirements of ISO9001:2015 as a base line in our pursuit of excellence.

## **We are committed to reviewing our policy and good practice annually.**

This policy was last reviewed on: 19<sup>th</sup> July 2021
